STATE DEPARTMENT OF PUBLIC HEALTH

Cheyenne, Wyoming

STATE BOARD OF HEALTH REGULATION GOVERNING SANITATION OF CONSTRUCTION, LOGGING,
AGRICULTURAL, COAL OR OTHER MINING CAMPS, OR COMMUNITIES

It shall be the duty of every owner, lessee, its officers or agents or other person or persons having jurisdiction or direction of any construction, logging, agricultural, coal or metal mining camp or other camp or community used to house employees of the owner or lessee to provide reasonable protection for such employees against communicable, contagious or filth borne diseases in such camp or community. Each such camp or community shall be provided with an adequate and easily accessible potable water supply and adequate and suitable sanitary sewerage and waste disposal. Sanitary sewage disposal shall consist of an adequate water carriage sewage collection system and sewage treatment plant, or an adequate number or properly designed septic tank and sub-surface tile field soil absorption systems, or an adequate number of properly constructed and maintained fly-proof sanitary pit privies, or any combination of these methods, so constructed and located as to protect any source of ground water or surface water against pollution therefrom. Garbage and refuse shall be disposed of in such a manner as to prevent fly and rodent breeding and so that such material will not become a nuisance or menace to health. Suitable provision for the disposal of garbage and refuse shall be provided by the owner or lessee.
